

Life Molecular Imaging GmbH (LMI) is a German based Research & Development (R&D) organization focused on developing PET imaging solutions to diseases with high unmet medical need. Our vision is to build our position as an innovator and leading player in the Molecular Imaging field. We aim to create value for patients & physicians by improving early detection and characterization of chronic and life-threatening diseases leading to better therapeutic outcomes and improved quality of life.

For our approved PET tracer NeuraCeq and our pipeline of tracers in clinical development we offer the following full-time position in Berlin, Germany:

Junior Scientist (m/f/d) PET-Radiopharmaceuticals

Main Tasks & Responsibilities:

- Take part in the development of manufacturing methods of Life Molecular Imaging's PET tracers and / or the development and optimization of radio-analytical procedures (e.g. HPLC, GC, TLC)
- Implementation of manufacturing and testing procedures to new contract manufacturing sites (CMS) of current and new fluorine-18 radiopharmaceuticals (technology transfer)
- Train staff at CMS on manufacturing and / or testing methods
- Ensure implementation of manufacturing and testing procedures at CMS
- Provide technical support to CMS during site set up and after approval
- Support preparation and review of SOP and GMP relevant documentation
- Review validation documents and batch records
- Support Quality Team in ensuring compliance with GMP
- Preparation and revision of CMC documents
- Implement process changes and continuously improve manufacturing and / or QC processes

Qualifications and experience:

- University degree in Chemistry, Pharmacy, or related discipline
- First experience with automated manufacturing of radiopharmaceuticals and / or quality control of radiopharmaceuticals desirable
- Proactive with a high degree of endurance, flexibility, and mobility (15-25% traveling)
- Knowledge of EU / UK GMP guidelines and regulatory standards desirable
- Fluency in English
- Attention to detail and quality
- Ability to work effectively in a team environment
- Open-minded and motivating attitude

If you want to become part of an entrepreneurial team, if you are prepared to assume a wide range of responsibilities and if your background and personal experience fits this profile, please send us your complete application (Cover letter detailing your interest in this position including your past relevant research and work experience, CV, and publication list) as a single pdf document to:
