

Life Molecular Imaging GmbH (LMI) is the German based Research & Development (R&D) organization of Life Molecular Imaging S.A. Switzerland, a wholly owned subsidiary of Alliance Medical Group Limited. Our vision is to strengthen our position as an innovator and leading player in the Molecular Imaging field. We aim to create value for patients & physicians by improving early detection and characterization of chronic and life-threatening diseases leading to better therapeutic outcomes and improved quality of life.

For our approved PET tracer NeuraCeq and our pipeline of tracers in clinical development we offer the following full-time position:

CMC Network Manager (m/f/d) PET-Radiopharmaceuticals

Main Tasks & Responsibilities:

- Manage the cooperation with our contract manufacturing partners in Europe
- Coordinate interaction between external partners and internal functions (e.g. QA, R&D)
- Develop a thorough understanding of LMI's manufacturing und testing procedures
- monitoring and analysis of routine PET tracer production
- Manage multiple technology transfer projects (implementation of manufacturing and testing procedures to new contract manufacturing sites) of current and new radiopharmaceuticals
- Support trouble shooting and follow-up on CAPA implementation
- Support the preparation and revision of CMC documents for regulatory filings in Europe
- Prepare and revise training materials and provide training to our manufacturing partners
- Review validation documents and batch records
- Identify and implement process changes and provide feedback for continuously improvement of manufacturing processes

Skills:

- Ability to work effectively in a team environment, also remotely
- Good communicator
- Attention to detail and quality orientation
- Solid understanding for regulated processes, in particular cGMP (Eudralex Vol. IV Annex 1, 3)
- proactive with a high degree of endurance, flexibility and mobility (10-20% traveling)
- Open-minded and motivating attitude
- MS Office skills, in particular Word, Excel and PowerPoint
- Fluency in English

Experience:

- University degree in Chemistry, Pharmacy, or related discipline
- Several years of experience in commercial PET tracer manufacturing
- Experience in managing collaborations and vendors
