

Life Molecular Imaging GmbH (LMI) is a German based Research and Development (R&D) organization focused on developing PET imaging solutions to diseases with high unmet medical need. As a division of the Alliance Medical Group, we are a fully integrated pharmaceutical company with research and development laboratories, access to a network of cyclotrons, radiopharmacies and imaging facilities. Our vision is to build our position as an innovator and leading player in the Molecular Imaging field. We aim to create value for patients & physicians by improving early detection and characterization of chronic and life-threatening diseases leading to better therapeutic outcomes and improved quality of life.

For our approved PET tracer NeuraCeq® and our pipeline of tracers in clinical development we offer the following full-time position at our Berlin site:

Manager (m/f/d) Kit & Material Supply Logistics

Main Tasks & Responsibilities:

- Manage and oversee kit and material supplies for NeuraCeq® and pipeline products as well as cassettes and glass vials with LMI's contractors
- Initiate and follow up shipments with LMI customers, partners and vendors
 - Kits, cassettes, and consumables
 - Precursors and compounds
 - Sterile vials
 - Technical spare parts
- Tightly follow up with customers, collaboration partners, contractors and vendors to enable timely and smooth deliveries
- Assist Head of CMC Operations in communication and correspondence with customers and collaboration partners, provide certificates, product information and shipping documents
- Assist LMI customers and collaboration partners in receiving LMI's shipments
- Monitor, maintain, update and oversee kit and material inventories
- Manage with Head of CMC Operations timely and efficient replenishment of stocks and manufacturing campaigns at contractors
- Coordinate with LMI CMC managers stock and inventory in external US warehouse
- Monitor and maintain vendor contracts

Skills:

- Ability to work effectively in a team environment
- Good communicator
- High degree of responsiveness and customer orientation
- Attention to details, diligence and accuracy
- Open-minded attitude
- Quality oriented

- Solid understanding of international shipments, customs procedures, Incoterms, logistics and shipping documents
- Intercultural empathy
- Flexibility and mobility (about 5-10% traveling)
- Computer skills, in particular Word, Excel and Outlook
- Fluency in English

Experience:

- Professional qualification from vocational school or trade school
- Five years (+) in international shipments, customs procedures, Incoterms and logistics of pharmaceutical raw materials, consumables and dangerous goods
